This list of businesses has been compiled by the Washington SWCD for residents and businesses. Businesses offering similar services may be added to the list by calling the Washington SWCD @ (740) 885-3325. The United States Department of Agriculture (USDA) and the Washington Soil and Water Conservation District prohibits discrimination in its programs on the basis of race, color, national origin, sex, religion, age, disability, political beliefs, and marital or family status. (Not all prohibited bases apply to all programs).

The Problem.....

- Stormwater pollution can include chemicals, fast food wrappers, cigarette butts, Styrofoam cups, sewage overflow, cooking oil, bacteria from pet waste, used motor oil, fertilizers, paint, and construction debris.

The Solution.....

- Handling and disposing of waste properly can help to prevent storm water contamination.
- Never dump waste into a storm drain or a stream.
- Recycle Reuse Reduce!

*In many cases,
 our waste is just a resource in the wrong place,
 and can be recycled at little or no cost to the consumer....*
