

Conservation & Craft Workshop

Do EWE get tired of watering your plants all the time?

BAAAAAAD weather got you down?

Join our workshop to find out how sheep's wool can help!

Conservation - Guest Speakers Alyssa White & Mollie Lang speak on their 2 time State Finalist Science Fair project. Using wool to help retain water for plants. Campbell Farms will be represented as the wool producer.

Craft - Make a needle felting creation to take home with you. All supplies will be included.
